

What's new

Stay up-to-date with news of the latest gardening products and plants from DEBBIE McDONALD. Buy them from your nursery, garden centre or online.

NEW COLOUR COMBO

Aloe Rias is the latest in a line of aloes bred for their prolific flowering and ability to withstand climate extremes. This hybrid, which produces gorgeous brick-red to orange flowers from early winter, is a showy addition to any perennial collection. gardenexpress.com.au

CHRISTMAS CHEER

We love poinsettias for their showy red or crimson flowers (they're really bracts), which instantly say Christmas. For a touch of fun, look for vibrant new varieties such as cream-splashed 'Primero Glitter' (above), 'Ice Punch', which has red flowers marked with a pink star, or 'Polar Bear', which is reputedly the whitest poinsettia around.

No more saw muscles

The Bosch Keo cordless garden saw takes the grunt work out of cutting through branches. Use the detachable A-grip to position the saw and keep it steady, then squeeze the trigger for a nice clean cut. The saw is battery powered and lightweight with a comfortable, soft-grip handle. Cut branches 6cm thick with the grip on, or 8cm with the grip off. bosch-pt.com.au

FRENCH CHARM

Delight your guests at Christmas lunch with this whimsical French wire table decoration. It comes with zinc stars and hanging mushrooms in mercurised glass, with a silver heart at the top. At 38cm, it's tall enough to make a statement but its open design ensures you can still see each other. Secure it in your own pretty pot. \$40 from heaveninearth.com.au
